

My name is Chuck Verry and I am running for re-election to the AAFPO board of directors. My wife Carol and I have been full time residents of Angel fire for four and a half years. We own and operate the local auto parts store. My experience on the AAFPO board has included being chairman of the Amenities Committee, with responsibility to oversee the allocation and spending of the 4% discretionary funds. Other responsibilities included Finance Committee, Election Committee, and Website. Amenities committee sponsored projects have included RV bath house renovation, Oly park upgrade, golf course beautification, ski area glades to name a few. If elected I will work to complete current amenities projects, continue to seek consensus of AAFPO purpose, represent all membership (charter and base), and to help transition the next amenities chairperson. If given the opportunity I would like to serve on the EACC or Appeals committees, where I could utilize my business and engineering background. With a majority of the board being replaced this election it is important to consider continuity of institutional knowledge, please help me to provide this continuity by re-electing me to the AAFPO board.
