

Lionel Dace

Our family began visiting Angel Fire in 1979. In 1986 we purchase a condominium and, in 2009 we built the home in which we now live. My purpose in running for the board is to help secure a vital and enjoyable resort community for AAFPO members through improved member amenities in cooperation with the Resort. Presently, I serve on an amenity committee and act as President, AFMGA .

Your vote is important. It would please me to be one of your representatives on the AAFPO board. Please consider these qualifications.

Entrepreneurial career activity centered on coordinating client sourcing teams consisting of engineers, buyers and quality controllers with product design and cost reduction. Donna and I started Dejay Industries, sourcing and selling “made to print” engineered parts and assemblies in 1979. We traveled extensively in Europe and East Asia sourcing product for clients.

We started Dace & Dace, Manufacturers’ Representative in 1975 selling custom component parts and assembly equipment. We built the company into a multi-person inside and outside sales team and sold it in 2007.

Prior to 1975

Field Engineer, Product Management, Sales and General Management.

Beloit College, BA Economics.
